

RENNYLEA PTIC AUTUMN CALVING COWS FOR SALE - MID JUNE 2021 EBVs

For the first time we are offering PTIC cows at our spring bull auction on the 26th August. These cows are surplus to requirements and will be pregnancy tested by Dr Shane Thomson from Holbrook Vet Centre on the 27th July. They will be preg tested again just prior to auction. Only the PTIC females will be offered however the entire list of females joined is displayed below. Following pregnancy testing the list of PTIC cows will be available on AuctionsPlus and on the Rennylea website. They will be sold with APR (Angus Performance Register) and HBR (Herd Book Register) registration from the Angus Society.

The cows were AI'd by Dr Seumas McKillop from Holbrook Vet Centre on the 6/5/21 and backed up 20/5/21 - 23/6/21. The three to five year old cows were AI'd to Rennylea semen sires NORQ213, NORM763 and NORQ1077 and the heifers AI'd to proven calving ease sires NORQ213, NORP987 and NORM763.

They were all backed up to high marbling young Rennylea sires NORQ783, NORQ1077, NORQ1081, NORQ1349 and NORQ392. The full joining details will be available following pregnancy testing.

The females will be penned at the 'Ellerslie Park' bull selling complex on sale day and sold following the bulls, which start at 12PM.

A small number of elite females will be sold individually. The rest will be sold in lots ranging from 5 to 10 animals.

We are having two open days on the mornings of Friday 13th August and Friday 21st August from 9AM-12PM and the cows will be available for inspection. Please ring to book in if you would like to inspect them, or arrange another time which suits.
